

Business Partnership Proposal

LNG

Media Group

By partnering with LNG Media Group, you are partnering with key stakeholders Randy Narciso and Don Loperena. Together, we have identified a market need for basketball statistics and video analyses and successfully developed a solution, the Tap Series Suite of basketball apps.

Tap Series Suite of Basketball Apps

We believe our Tap Series suite of basketball apps offers ALL coaches, trainers, players, parents, and fans access to powerful statistical and video analysis tools that can change the game, regardless of age, skill level, or budget.

Our goal is to partner with your organization and integrate our related basketball apps and services with your program.

Our primary proposal is to fully re-brand our proven mobile apps and co-market specific solutions with a revenue share agreement.
